OBJECTIVE

Acting as a front-end or full-stack developer in the web development field, where I can apply my knowledge in JavaScript, TypeScript, React.js, and Node.js, as well as continue to enhance my skills and contribute to the team's and project's success.

WORK EXPERIENCE

- **Office Assistant - Freelancer**
April 2020 - January 2022
Responsible for Excel spreadsheet organization.
- **Front-End Developer – Freelancer**
January 2022 – Present
 - **Project: Listas** ([Project Link](#))
The website offers a user-friendly interface, where the user can add simple everyday tasks and they are stored in the cloud by Firebase (Google).
-Technologies: HTML-CSS, JavaScript, React.Js, Figma e Firebase.
 - **Project: Travel** ([Project Link](#))
The website offers an easy and simple-to-use interface, where the user can view tickets to regions within Brazil and other countries. These tickets include descriptions, ratings, and fictitious prices provided by a Rest API.
- Technologies: JavaScript, TypeScript, React.Js, Node.Js, PostgreSQL.
